FUK LOY CHUEN KAM CHUEN KINDERGARTEN

Christmas is coming soon! Have parents prepare gifts for their children? Do you know what is the Best Gift? In addition to know and believe in the Lord Jesus who loves us, parents can give their children "Love Education"! The motto of our school is "Train up a child in the way he should go, and when he is old, he will not depart from it." (Proverbs 22:6) It means that we teach the children and allow them to walk on the right path. We are thankful for the past three months, the children have grown up, made progress day by day, adapt to and participate in school life. Do you know how to help your children grow further in the next six months? Let's take a look at the little tips :

Merry Christmas

K. 3

- ◆ Become a self-disciplined and positive child
- ◆ Do your own things
- ◆ Check homework
- ◆ Pack own schoolbag
- ◆ Take the initiative to express own thoughts and feelings

K. 1

- Practice doing things by yourself
- Participate more actively in class
- Express your own opinions

K. 2

- Enjoy a pleasant campus life
- Ability to learn actively and express one's opinions and feelings confidently
- Be able to actively explore things around you and establish a spirit of active knowledge seeking

Christmas Blessings

K-1

The first theme is "School", which aims to allow children who have just started school to understand the people, environment, facilities, schedules and rules on campus. Moreover, children also learn to manage personal belongings to improve their self-care ability and hope that the children can adapt to campus life as soon as possible and be happy to go to school every day.

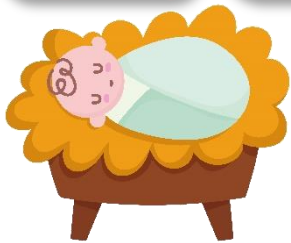

The theme of "Knowing Yourself" aims to enable young children to understand the names and functions of different parts of their bodies. In addition, through the process of the little monkey picking pears in the picture book "Little Monkey Grows Up", we hope that children will learn the attitude of not giving up easily and actively solving problems when faced with difficulties.

In the theme of “Family”, combined with the picture book “Kiki the Kitten is Afraid of Admitting Mistakes”, it is hoped that children will not be afraid to confess when they do something wrong and learn to bravely admit their mistakes. Moreover, they learn about different family members and their work. This theme also allows children to try role-playing and act out the characters in the book.

Through the theme of "School", children are taught and cultivated to enjoy a happy group life in school. It also cultivates children to be active and friendly in making friends, learn to get along well with friends, get to know people in the school and understand the school environment. Thank the lord for giving us the love to pray for others.

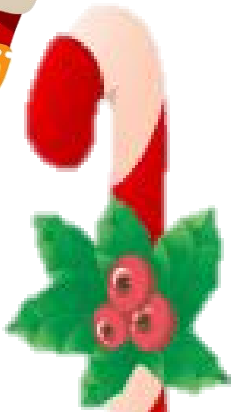

The main learning content of "Know Yourself" is to guide children to understand the names and functions of different parts of their body. Moreover, to know that everyone is different, and to accept and appreciate themselves from different perspectives, such as: discovering their own talents and appreciating the things they have done to build a healthy self-image.

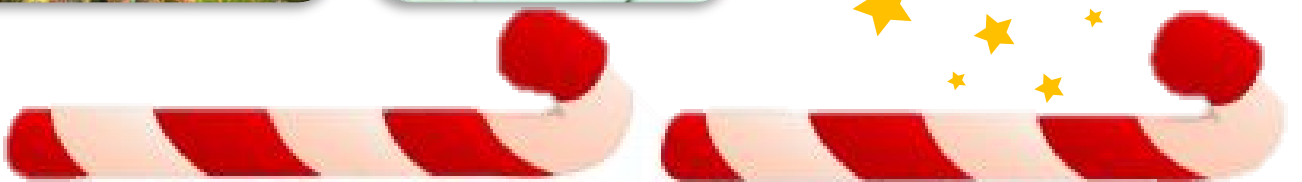

Through the theme of "Seasons", the children learn about the temperature changes, characteristics and clothing of the four seasons through different exploration activities. They learn to wear clothes according to different seasons, learn to observe and appreciate the natural environment and cultivate their curiosity for exploration.

K.2

“Our Community Helpers” allows young children to explore the people outside their home who help us in the community. In addition, when getting to know the people in the community who help us, young children also learn how to respect and thank them. They should also thank the lord for the people who help us.

“Healthy Living” allows children to establish healthy living habits from three aspects: a balanced diet, more exercise and an orderly work and rest schedule. In addition, it also helps children’s understanding of the importance of the above three aspects for their health. Moreover, children will also examine their living habits and thank the lord for creating day and night.

“The Mouse World Conference” allows children to learn the cultural differences of different countries, understand the food, national flags, traditional costumes and scenic spots of different countries. Children learn how to respect people of different nationalities, and this theme also let children learn to abide by local regulations when traveling abroad. The children also follow relevant rules or regulations, enhance self-discipline awareness and cultivate civic education in terms of public morality.

Fuk Loy Chuen Kam Chuen Kindergarten Parent-Teacher Association

Dear Kam Chuen Family:

Hello everyone! I am Aman Deep, the chairman of the PTA. I am very grateful to all executive committee members for their hard work and selfless love. I am really grateful to everyone for their concerted efforts, dedication, persistence and all of the parents' support. We will continue to serve you, continue to do a good job in home-school cooperation and fully support this Kam Chuen family.

Member of 1st Parent-Teacher Association
